

Royal Chronology and History of INDIA:

Generation	YEAR	Yadus	Drhuyus	Anus & Vasisthas	Purus (Bharatas)	Bhrgus (Bhargavas)	Ikshvakus	Jahnus (Bharatas)
Pre-historic Period - First Humans in India								
1	2 million B.C.			<i>Earliest hominids in India</i>				
100,000	500,000 B.C.							
127,000	100,000 B.C.			<i>Homo-Sapiens migrate into Asia</i>				
133,000	10000 B.C.	Dravida Nadu - Dravidian Nation						
133,050	9000 B.C.	Between 10,000 and 4,000 B.C. (before Aryan migration), India was primarily populated by the Dravidians (Mediterraneans). We're starting to find clues to their dominance in early history by analyzing linguistic patterns of peoples (Brahui) that use a guttural language related to Tamil. (Aryans were of white caucasian race and Dravidians were of dark caucasian race.)						
133,100	8000 B.C.	Naveli Cori						
133,150	7000 B.C.		<i>First Major Indian city - Mergarh</i>					
133,200	6000 B.C.	Saraswati Cities						
Pre-Dynastic Era								
Although we do not have much evidence to prove the validity of the Pre-Dynastic lineage (other than what is documented in the Puranas), we also do NOT have any sure way to conclusively disprove it. Therefore I am including it for completeness.
